# UX Design Storyboard

Scenario: Kyban uses the artist's pre order application to preview and pre order new album – Big Picture

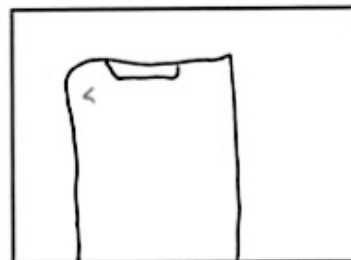

Kyban has discovered that an artist is releasing a new album

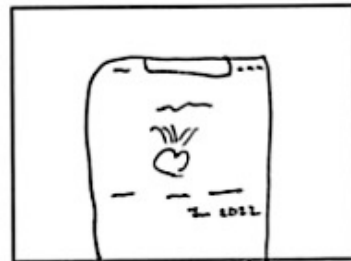

Kyban downloads the artist's pre order applict

Kyban is happy to find new content about the artist (shows, etc)

Kyban presses the songs on the new album and chooses to pre order

Kyban is excited that his streaming preferences are available

Kyban pre orders the album and has a lot for upload
